

Liquidity Risk Services: Best Practice

According to the Basel Committee on Banking Supervision, the implementation of Liquidity Risk regulations

“ should be tailored to the size, nature of business and complexity of a bank’s activities ”

Best Practice is a service supplied to financial institutions requiring expert-led consulting in Liquidity Risk Management. **Best Practice** is an approach pioneered by Dr Robert Fiedler, renowned expert in Liquidity Risk. **Best Practice** delivers a roadmap for the realisation of an industry-leading Liquidity Risk Management capability.

Why use our service for Best Practice?

The world’s top financial institutions must demonstrate excellence in Liquidity Risk Management in order to maintain credit ratings and to satisfy regulators that they do not present excessive systemic risks locally and cross-border. Pelican is experienced in delivering the **Best Practice** roadmap which will provide the means to achieve this goal.

21st Century Tools

Dr Fiedler and his colleagues in the Advisory arm of Pelican Consulting Ltd have a mix of expert-led consulting and advanced regulatory products such as **Maximus** and **Blueprint***. This combination will propel leading money centre banks into the vanguard of a new breed of firm which uses risk management as a differentiator to competitors.

This suite of services provides a comprehensive set of tools that allow modern financial firms to create an optimal approach to corporate governance, to consolidate effective systems and to devise new services for Liquidity Risk customers.

Best Practice is ideal for CEOs, CROs and Heads of ALM, Treasury and Finance in sophisticated firms requiring external support and advice from practitioners and subject matter experts in Liquidity Risk.

* **Maximus** is our regulatory database for Liquidity Risk. **Blueprint** is our proprietary software blue print for Liquidity Risk Management software.
